

# Application for Squib Fleet Training/Coaching

## Background

The N.S.O.A has set up a bursary funding pot to support local Squib fleets wanting to organise a training/coaching day or weekend. The primary goal is to help develop participation, confidence, and capabilities in your club racing activity.

Squib fleets are able to apply for some modest 'seed funding' of up to £200 to help with the structural costs of running this group activity, which might be a coach's fee, visitor launching, support boat fuel etc etc.

Fleets are encouraged to invite other Squib NSOA members and fleets to attend, to maximise the benefit to as many NSOA members as possible.

To apply for funding, please complete the attached form and return to [willdavies@sky.com](mailto:willdavies@sky.com)

Applications will be reviewed, with final approval to be ratified by the NSOA Committee and communicated back via the Treasurer.

## Application details

Club hosting the training:

Organising NSOA member:

Date of event and number of days:

Expected number of boats involved from home club:

Expected number of visiting boats:

Bursary funding sought:

What is the funding to be used for?
